

Southern Nevada Residential Energy Efficiency Consumer Products Rebate Program

Learn how you can make energy decisions that are *Smarter Greener Better* for you and the environment.

It's the perfect time to make smarter choices for you and the environment. The high-efficiency models shown below can help reduce your energy usage and carbon footprint as well as your energy costs. What could be better than saving money and the environment?

More Green for You!

To help you save money up-front, equipment rebates are currently being offered on the select equipment shown below, beginning November 1, 2009.

To determine appliance eligibility prior to purchase, and to receive a rebate application, go to www.conservationsrebates.com, or call 1-866-802-7790.

Eligible Equipment and Rebate Levels:

EQUIPMENT	REQUIREMENTS
Natural Gas Storage Water Heater	Energy Factor (EF) 0.62 and greater and storage capacity 29 – 65 gallons AVAILABLE REBATE —\$100*
Natural Gas Tankless Water Heater	Energy Factor (EF) 0.82 and greater; less than 200,000 Btu/hour input AVAILABLE REBATE —\$200*

Southern Nevada Residential Weatherization Program

Save Money and Energy with Southwest Gas Rebates

If you're a Southwest Gas residential customer who is thinking about weatherizing your home and would like to save money in the process, Southwest Gas is currently offering rebates on the purchase and installation of cost-effective weatherization measures. Eligible weatherization measures include windows; duct sealing; duct, attic and floor insulation.

Making energy-efficient improvements to your home is Smarter because these improvements can help lower your utility bills by reducing your energy consumption and optimizing your home's energy efficiency; Greener because you can put money back into your pocket by taking advantage of the Southwest Gas rebates; and Better for the environment because it reduces your home's carbon footprint.

How Do I Apply For Rebates?

Rebates are available for purchases and installations beginning **July 1, 2010**. To determine eligibility prior to purchase and installation, and to obtain a rebate application, please visit www.conservationrebates.com or call **1-866-802-7790**.

WEATHERIZATION MEASURE

REQUIREMENTS

Windows

U-factor of .30 or lower and Solar Heat Gain Coefficient of .30 or lower
—**\$0.95/SqFt Rebate***

Attic Insulation

Must install increment of R-19 or higher; Final condition must be at least R-38 (up to a maximum of R-60)
—**\$0.35/SqFt Rebate***

Floor Insulation

Must install increment of R-19 or higher
—**\$0.35/SqFt Rebate***

Duct Sealing and Insulation

Duct Sealing: Performance Tested Comfort Systems standards; Duct Insulation: R-6 or higher
—**\$475 Rebate***
